JOURNAL OF ELECTROANALYTICAL CHEMISTRY

Subject index

$(AuCl_3)_2$
The STM imaging of an ordered $(AuCl_3)_2$ surface species during chloride-induced dissolution of Au(111) (Haiss, Sass) 15
Active hydrogen
A new hydrogenation system of 4-methylstyrene using a palladinized palladium sheet electrode (Iwakura et al.) 43
Adsorbed cyanide
Electrochemical behaviour of amino acids on Pt(h,k,l). A voltammetric and in situ FTIR study. Part II. Serine and alanine on Pt(111) (Huerta et al.) 269
Adsorption
Unusual activation of glassy carbon electrodes for enhanced adsorption of monomeric molybdate(VI) (Ilangovan, Chandarasekara Pillai) 11
Interfacial properties of hypoxanthine adsorbed at the mercury|electrolyte interface (Rueda et al.) 257
Alanine
Electrochemical behaviour of amino acids on Pt(h,k,l). A voltammetric and in situ FTIR study. Part II. Serine and alanine on Pt(111) (Huerta et al.) 269
Alcohol
Influence of small alcohol concentrations on the conductimetric behaviour of a natural polyelectrolyte (laurel, laurus nobilis) (Rey et al.) 77
Anodic dissolution
In situ electrochemical scanning tunneling microscopy of Co(0001) single crystal electrodes in acidic solution (Ando et al.) 277
Anodic oxide films
Characterisation of anodic oxide films on Sb + Bi alloys in 1 M H_3PO_4 by photocurrent and capacitance measurements (Bojinov et al.) 117
Anthranilic acid
Studies of the effect of anthranilic and thiosalicylic acid on the two-step electroreduction of Zn(II) ions (Dalmata) 67
Asymptotic analysis
Diagnosis of adsorption on solid electrodes using semi-integral voltammetry: A generalization *via* asymptotic analysis (Bernard et al.) 153
Au(111)
The STM imaging of an ordered $(AuCl_3)_2$ surface species during chloride-induced dissolution of Au(111) (Haiss, Sass) 15
Au electrode
An EQCM investigation of oxidation of formic acid at gold electrode in sulfuric acid solution (Chen et al.) 243
Azurin
In situ STM and AFM of the copper protein *Pseudomonas aeruginosa* azurin (Friis et al.) 35

Bismuth + antimony alloys
Characterisation of anodic oxide films on Sb + Bi alloys in 1 M H_3PO_4 by photocurrent and capacitance measurements (Bojinov et al.) 117
Bismuth, cadmium, antimony, mercury, tin, lead and zinc electrodes
Adsorption of organic compounds and hydrophilicity of bismuth, cadmium and antimony electrodes (Lust et al.) 183
Brönsted relation
Hydrogen evolution from solutions of citric acids (Marinović, Despić) 127

Capacitance measurements
Characterisation of anodic oxide films on Sb + Bi alloys in 1 M H_3PO_4 by photocurrent and capacitance measurements (Bojinov et al.) 117
Carbon paste
Preliminary electrochemical study of phenothiazines and phenoxazines immobilized on zirconium phosphate (Pessoa et al.) 23
Catalytic activity
Studies of the effect of anthranilic and thiosalicylic acid on the two-step electroreduction of Zn(II) ions (Dalmata) 67
Cathodic deprotection
The cathodic deprotection of the nitrobenzoyl group from phenyl nitrobenzoates in *N*,*N*-dimethylformamide (Jorge, Stradiotto) 237
Cathodic pretreatment
Unusual activation of glassy carbon electrodes for enhanced adsorption of monomeric molybdate(VI) (Ilangovan, Chandarasekara Pillai) 11
Chloride
The STM imaging of an ordered $(AuCl_3)_2$ surface species during chloride-induced dissolution of Au(111) (Haiss, Sass) 15
Co(0001)
In situ electrochemical scanning tunneling microscopy of Co(0001) single crystal electrodes in acidic solution (Ando et al.) 277
Cobalt(II)
Autocatalytic reduction of Cu(II) to copper by Co(II) studied by electrochemical quartz crystal microgravimetry in a wall jet cell (Jusys, Stalnionis) 141
Cobalt phthalocyanine
Catalytic electro-oxidation of 2-mercaptoethanol using cobalt phthalocyanine + poly(2-chloroaniline) modified electrodes (Retamal et al.) 1
Concentration
Influence of small alcohol concentrations on the conductimetric behaviour of a natural polyelectrolyte (laurel, laurus nobilis) (Rey et al.) 77
Conductimetry
Influence of small alcohol concentrations on the conductimetric behaviour of a natural polyelectrolyte (laurel, laurus nobilis) (Rey et al.) 77
Conductivity
Electrochemical doping of poly(vinyl chloride) obtained by photodehydrochlorination from laminated poly(vinyl chloride) + polypyrrole films (Ogura et al.) 111
Copper
Protective films formed on copper by oxygen plasma treatment (Bellakhal et al.) 297
Copper(II)
Autocatalytic reduction of Cu(II) to copper by Co(II) studied by electrochemical quartz crystal microgravimetry in a wall jet cell (Jusys, Stalnionis) 141

CO_2 reduction
High performance Ru–Pd catalysts for CO_2 reduction at gas-diffusion electrodes (Furuya et al.) 39
Coupled chemical reactions
Diagnosis of adsorption on solid electrodes using semi-integral voltammetry: A generalization *via* asymptotic analysis (Bernard et al.) 153
Critical micelle concentration
Electrochemical characterization of micellization of a pyrrole-substituted cationic surfactant (Berlot et al.) 57
Cryo-TEM
Investigations of a novel ferrocene-containing lipid by cyclic voltammetry and cryogenic transmission electron microscopy (Jacob et al.) 7
Cyclic Voltammetry
Investigations of a novel ferrocene-containing lipid by cyclic voltammetry and cryogenic transmission electron microscopy (Jacob et al.) 7
Cyclic voltammetry
The growth of the second underpotentially deposited silver layer on Pt(100) (Bittner) 51

Deposition
In situ electrochemical scanning tunneling microscopy of Co(0001) single crystal electrodes in acidic solution (Ando et al.) 277
Diamond
Synthetic semiconductor diamond electrodes: kinetics of some redox reactions (Modestov et al.) 211
Direct electrochemistry of proteins
The electrochemical study of oxidation–reduction properties of horseradish peroxidase (Li, Dong) 19
Dissolution
The STM imaging of an ordered $(AuCl_3)_2$ surface species during chloride-induced dissolution of Au(111) (Haiss, Sass) 15
DNA-modified gold electrodes
DNA-modified electrodes. Part 2. Electrochemical characterization of gold electrodes modified with DNA (Zhao et al.) 203

Electrical properties
Characterisation of anodic oxide films on Sb + Bi alloys in 1 M H_3PO_4 by photocurrent and capacitance measurements (Bojinov et al.) 117
Electrocatalysis
Catalytic electro-oxidation of 2-mercaptoethanol using cobalt phthalocyanine + poly(2-chloroaniline) modified electrodes (Retamal et al.) 1
Electrocatalytic oxidation of NADH
Preliminary electrochemical study of phenothiazines and phenoxazines immobilized on zirconium phosphate (Pessoa et al.) 23
Electrochemical and physico-chemical characterisations
A polyaniline + polyethylene oxide mixture as a composite polymer positive electrode in solid-state secondary batteries (Barthet et al.) 145
Electrochemical characterization
Electrochemical characterization of micellization of a pyrrole-substituted cationic surfactant (Berlot et al.) 57
Electrochemical doping
Electrochemical doping of poly(vinyl chloride) obtained by photodehydrochlorination from laminated poly(vinyl chloride) + polypyrrole films (Ogura et al.) 111
Electrochemically characterized
DNA-modified electrodes. Part 2. Electrochemical characterization of gold electrodes modified with DNA (Zhao et al.) 203
Electrode material
A polyaniline + polyethylene oxide mixture as a composite polymer positive electrode in solid-state secondary batteries (Barthet et al.) 145
Electrodeposition
CdTe electrodeposition and stripping: an electrochemical quartz crystal analysis (Matias et al.) 163
Electrodeposits
Kinetics and growth modes of quasi-2d silver branched electrodeposits produced in the presence of a supporting electrolyte (Schilardi et al.) 81
Electrodimerisation
Role of proton transfer in the electrochemical reduction mechanism of salicylideneaniline (Isse et al.) 249
Electroenzymatic oxidation
Self-assembled monolayers with biospecific affinity for lactate dehydrogenase for the electroenzymatic oxidation of lactate (Schlereth, Kooyman) 285
Electroless deposition
Autocatalytic reduction of Cu(II) to copper by Co(II) studied by electrochemical quartz crystal microgravimetry in a wall jet cell (Jusys, Stalnionis) 141
Electrolytic conductivity
Effects of ultrasound on the electrolytic conductivity of simple halide salts (Cataldo) 61
Electro-oxidation
Catalytic electro-oxidation of 2-mercaptoethanol using cobalt phthalocyanine + poly(2-chloroaniline) modified electrodes (Retamal et al.) 1
Electroreduction of Zn(II) ions
Studies of the effect of anthranilic and thiosalicylic acid on the two-step electroreduction of Zn(II) ions (Dalmata) 67
EQCM
Autocatalytic reduction of Cu(II) to copper by Co(II) studied by electrochemical quartz crystal microgravimetry in a wall jet cell (Jusys, Stalnionis) 141
An EQCM investigation of oxidation of formic acid at gold electrode in sulfuric acid solution (Chen et al.) 243
Ethylenediamine
Autocatalytic reduction of Cu(II) to copper by Co(II) studied by electrochemical quartz crystal microgravimetry in a wall jet cell (Jusys, Stalnionis) 141

Ferrocene
Investigations of a novel ferrocene-containing lipid by cyclic voltammetry and cryogenic transmission electron microscopy (Jacob et al.) 7
Film growth
The growth of the second underpotentially deposited silver layer on Pt(100) (Bittner) 51
Formic acid
An EQCM investigation of oxidation of formic acid at gold electrode in sulfuric acid solution (Chen et al.) 243

Gas diffusion electrode
High performance Ru–Pd catalysts for CO_2 reduction at gas-diffusion electrodes (Furuya et al.) 39
Glassy carbon electrode
Unusual activation of glassy carbon electrodes for enhanced adsorption of monomeric molybdate(VI) (Ilangovan, Chandarasekara Pillai) 11
Growth
Kinetics and growth modes of quasi-2d silver branched electrodeposits produced in the presence of a supporting electrolyte (Schilardi et al.) 81

HCOOH formation
High performance Ru–Pd catalysts for CO_2 reduction at gas-diffusion electrodes (Furuya et al.) 39
Horseradish peroxidase
The electrochemical study of oxidation–reduction properties of horseradish peroxidase (Li, Dong) 19

Hydrogenation
A new hydrogenation system of 4-methylstyrene using a palladinized palladium sheet electrode (Iwakura et al.) 43
Hydrogen evolution
A model for proton transfer on non-catalytic metals (Pecina, Schmickler) 47
Hydrogen evolution, - on Ag, - from citric acid, - mechanism of
Hydrogen evolution from solutions of citric acids (Marinović, Despić) 127
Hydrophilicity
Adsorption of organic compounds and hydrophilicity of bismuth, cadmium and antimony electrodes (Lust et al.) 183
Hypoxanthine
Interfacial properties of hypoxanthine adsorbed at the mercury|electrolyte interface (Rueda et al.) 257

Impedance spectra
Synthetic semiconductor diamond electrodes: kinetics of some redox reactions (Modestov et al.) 211
In situ AFM
In situ STM and AFM of the copper protein *Pseudomonas aeruginosa* azurin (Friis et al.) 35
In situ STM
In situ STM and AFM of the copper protein *Pseudomonas aeruginosa* azurin (Friis et al.) 35
In situ electrochemical scanning tunneling microscopy of Co(0001) single crystal electrodes in acidic solution (Ando et al.) 277
Interfacial characteristics
Interfacial characteristics of the self-assembly system of poly-L-lysine|3-mercaptopropionic acid|gold electrode (Li et al.) 227

Kinetics
Kinetics and growth modes of quasi-2d silver branched electrodeposits produced in the presence of a supporting electrolyte (Schilardi et al.) 81

1:1 Labile complexes
Voltammetry of metal ions in mixtures of ligands. Part I. Theoretical formulation and application to 1:1 labile complexes (Berbel et al.) 99
Laminated films
Electrochemical doping of poly(vinyl chloride) obtained by photodehydrochlorination from laminated poly(vinyl chloride) + polypyrrole films (Ogura et al.) 111
Ligand mixtures
Voltammetry of metal ions in mixtures of ligands. Part I. Theoretical formulation and application to 1:1 labile complexes (Berbel et al.) 99
Linear-sweep voltammetry
Synthetic semiconductor diamond electrodes: kinetics of some redox reactions (Modestov et al.) 211
Lipid
Investigations of a novel ferrocene-containing lipid by cyclic voltammetry and cryogenic transmission electron microscopy (Jacob et al.) 7

2-Mercaptoethanol
Catalytic electro-oxidation of 2-mercaptoethanol using cobalt phthalocyanine + poly(2-chloroaniline) modified electrodes (Retamal et al.) 1
3-Mercaptopropionic acid
Interfacial characteristics of the self-assembly system of poly-L-lysine|3-mercaptopropionic acid|gold electrode (Li et al.) 227
Mercury/aqueous interface
Interfacial properties of hypoxanthine adsorbed at the mercury|electrolyte interface (Rueda et al.) 257
Metal ions
Voltammetry of metal ions in mixtures of ligands. Part I. Theoretical formulation and application to 1:1 labile complexes (Berbel et al.) 99
Methylene Blue
Preliminary electrochemical study of phenothiazines and phenoxazines immobilized on zirconium phosphate (Pessoa et al.) 23
4-methylstyrene
A new hydrogenation system of 4-methylstyrene using a palladinized palladium sheet electrode (Iwakura et al.) 43
Mixed ionic and electronic conductors
A polyaniline + polyethylene oxide mixture as a composite polymer positive electrode in solid-state secondary batteries (Barthet et al.) 145
Mixed potential mechanism
Unusual activation of glassy carbon electrodes for enhanced adsorption of monomeric molybdate(VI) (Ilangovan, Chandarasekara Pillai) 11
Modified electrodes
Modification of carbon electrodes with zinc hexacyanoferrate (Joseph et al.) 231
Molybdate(VI)
Unusual activation of glassy carbon electrodes for enhanced adsorption of monomeric molybdate(VI) (Ilangovan, Chandarasekara Pillai) 11
Molybdenum trisulfide
Electrochemical preparation of polypyrrole–molybdenum trisulfide–tetrathiomolybdate electrode with various amounts of molybdenum species (Lavallée et al.) 219
Monte Carlo simulation
A model for proton transfer on non-catalytic metals (Pecina, Schmickler) 47

Natural polyelectrolytes
Influence of small alcohol concentrations on the conductimetric behaviour of a natural polyelectrolyte (laurel, laurus nobilis) (Rey et al.) 77
Nickel dimethylglyoxime complex
The reduction of nickel dimethylglyoxime complex preadsorbed on mercury (Ramírez et al.) 171
Nile Blue
Preliminary electrochemical study of phenothiazines and phenoxazines immobilized on zirconium phosphate (Pessoa et al.) 23
Nitrobenzoyl group
The cathodic deprotection of the nitrobenzoyl group from phenyl nitrobenzoates in *N*,*N*-dimethylformamide (Jorge, Stradiotto) 237

Organic adsorption
Adsorption of organic compounds and hydrophilicity of bismuth, cadmium and antimony electrodes (Lust et al.) 183
Oxidation
Protective films formed on copper by oxygen plasma treatment (Bellakhal et al.) 297
Oxidation mechanism
An EQCM investigation of oxidation of formic acid at gold electrode in sulfuric acid solution (Chen et al.) 243
Oxygen plasma
Protective films formed on copper by oxygen plasma treatment (Bellakhal et al.) 297

Palladinized Pd sheet
A new hydrogenation system of 4-methylstyrene using a palladinized palladium sheet electrode (Iwakura et al.) 43
Pd black deposits
A new hydrogenation system of 4-methylstyrene using a palladinized palladium sheet electrode (Iwakura et al.) 43
Pd catalysts
High performance Ru–Pd catalysts for CO_2 reduction at gas-diffusion electrodes (Furuya et al.) 39
Peak current
The reduction of nickel dimethylglyoxime complex preadsorbed on mercury (Ramírez et al.) 171

DNA-modified electrodes. Part 2. Electrochemical characterization of gold electrodes modified with DNA (Zhao et al.) 203
Phenyl nitrobenzoates
The cathodic deprotection of the nitrobenzoyl group from phenyl nitrobenzoates in *N,N*-dimethylformamide (Jorge, Stradiotto) 237
Photodehydrochlorination
Electrochemical doping of poly(vinyl chloride) obtained by photodehydrochlorination from laminated poly(vinyl chloride) + polypyrrole films (Ogura et al.) 111
Photoelectro-chemistry
Characterisation of anodic oxide films on Sb + Bi alloys in 1 M H_3PO_4 by photocurrent and capacitance measurements (Bojinov et al.) 117
Platinum electrodes
Electrochemical behaviour of amino acids on Pt(h,k,l). A voltammetric and in situ FTIR study. Part II. Serine and alanine on Pt(111) (Huerta et al.) 269
Polyaniline
Catalytic electro-oxidation of 2-mercaptoethanol using cobalt phthalocyanine + poly(2-chloroaniline) modified electrodes (Retamal et al.) 1
A polyaniline + polyethylene oxide mixture as a composite polymer positive electrode in solid-state secondary batteries (Barthet et al.) 145
Polyethylene oxide
A polyaniline + polyethylene oxide mixture as a composite polymer positive electrode in solid-state secondary batteries (Barthet et al.) 145
Poly-L-lysine
Interfacial characteristics of the self-assembly system of poly-L-lysine|3-mercaptopropionic acid|gold electrode (Li et al.) 227
Polymer-modified electrodes
Catalytic electro-oxidation of 2-mercaptoethanol using cobalt phthalocyanine + poly(2-chloroaniline) modified electrodes (Retamal et al.) 1
Polypyrrole
Electrochemical doping of poly(vinyl chloride) obtained by photodehydrochlorination from laminated poly(vinyl chloride) + polypyrrole films (Ogura et al.) 111
Electrochemical preparation of polypyrrole–molybdenum trisulfide–tetrathiomolybdate electrode with various amounts of molybdenum species (Lavallée et al.) 219
Poly(vinyl chloride)
Electrochemical doping of poly(vinyl chloride) obtained by photodehydrochlorination from laminated poly(vinyl chloride) + polypyrrole films (Ogura et al.) 111
Protective films
Protective films formed on copper by oxygen plasma treatment (Bellakhal et al.) 297
Protein immobilization
In situ STM and AFM of the copper protein *Pseudomonas aeruginosa* azurin (Friis et al.) 35
Proton transfer
A model for proton transfer on non-catalytic metals (Pecina, Schmickler) 47
Pyrrole
Electrochemical characterization of micellization of a pyrrole-substituted cationic surfactant (Berlot et al.) 57

Quartz crystal analysis
CdTe electrodeposition and stripping: an electrochemical quartz crystal analysis (Matias et al.) 163

Rate constant
Synthetic semiconductor diamond electrodes: kinetics of some redox reactions (Modestov et al.) 211
Redox peaks
DNA-modified electrodes. Part 2. Electrochemical characterization of gold electrodes modified with DNA (Zhao et al.) 203
Redox reaction
Synthetic semiconductor diamond electrodes: kinetics of some redox reactions (Modestov et al.) 211
Ru catalysts
High performance Ru–Pd catalysts for CO_2 reduction at gas-diffusion electrodes (Furuya et al.) 39
Ru–Pd catalysts
High performance Ru–Pd catalysts for CO_2 reduction at gas-diffusion electrodes (Furuya et al.) 39

Salicylideneaniline
Role of proton transfer in the electrochemical reduction mechanism of salicylideneaniline (Isse et al.) 249
Scanning tunnelling microscopy (STM)
The growth of the second underpotentially deposited silver layer on Pt(100) (Bittner) 51
Self-assembled monolayers
The electrochemical study of oxidation–reduction properties of horseradish peroxidase (Li, Dong) 19
Interfacial characteristics of the self-assembly system of poly-L-lysine|3-mercaptopropionic acid|gold electrode (Li et al.) 227
Self-assembled monolayers with biospecific affinity for lactate dehydrogenase for the electroenzymatic oxidation of lactate (Schlereth, Kooyman) 285
Self-protonation
Role of proton transfer in the electrochemical reduction mechanism of salicylideneaniline (Isse et al.) 249
Semiconductor electrodes
Synthetic semiconductor diamond electrodes: kinetics of some redox reactions (Modestov et al.) 211
Semi-integral voltammetry
Diagnosis of adsorption on solid electrodes using semi-integral voltammetry: A generalization *via* asymptotic analysis (Bernard et al.) 153
Serine
Electrochemical behaviour of amino acids on Pt(h,k,l). A voltammetric and in situ FTIR study. Part II. Serine and alanine on Pt(111) (Huerta et al.) 269
Silver
Kinetics and growth modes of quasi-2d silver branched electrodeposits produced in the presence of a supporting electrolyte (Schilardi et al.) 81
Single crystal electrode
The growth of the second underpotentially deposited silver layer on Pt(100) (Bittner) 51
Sonoelectrochemistry
Effects of ultrasound on the electrolytic conductivity of simple halide salts (Cataldo) 61
Specific electrode
Electrochemical characterization of micellization of a pyrrole-substituted cationic surfactant (Berlot et al.) 57
Spectroelectrochemical study
Electrochemical behaviour of amino acids on Pt(h,k,l). A voltammetric and in situ FTIR study. Part II. Serine and alanine on Pt(111) (Huerta et al.) 269
Stability
DNA-modified electrodes. Part 2. Electrochemical characterization of gold electrodes modified with DNA (Zhao et al.) 203
STM
The STM imaging of an ordered $(AuCl_3)_2$ surface species during chloride-induced dissolution of Au(111) (Haiss, Sass) 15
Stripping
CdTe electrodeposition and stripping: an electrochemical quartz crystal analysis (Matias et al.) 163

Supporting electrolyte
Kinetics and growth modes of quasi-2d silver branched electrodeposits produced in the presence of a supporting electrolyte (Schilardi et al.) 81
Surface compound
The STM imaging of an ordered $(AuCl_3)_2$ surface species during chloride-induced dissolution of Au(111) (Haiss, Sass) 15
Surface-modified electrodes
Self-assembled monolayers with biospecific affinity for lactate dehydrogenase for the electroenzymatic oxidation of lactate (Schlereth, Kooyman) 285
Surface plasmon resonance
Self-assembled monolayers with biospecific affinity for lactate dehydrogenase for the electroenzymatic oxidation of lactate (Schlereth, Kooyman) 285
Surface structure
The growth of the second underpotentially deposited silver layer on Pt(100) (Bittner) 51
Surfactant
Electrochemical characterization of micellization of a pyrrole-substituted cationic surfactant (Berlot et al.) 57

Tellurium/cadmium telluride (CdTe)
CdTe electrodeposition and stripping: an electrochemical quartz crystal analysis (Matias et al.) 163
Thermodynamics
Adsorption of organic compounds and hydrophilicity of bismuth, cadmium and antimony electrodes (Lust et al.) 183
Thin-film electrodes
Synthetic semiconductor diamond electrodes: kinetics of some redox reactions (Modestov et al.) 211
Thiosalicylic acid
Studies of the effect of anthranilic and thiosalicylic acid on the two-step electroreduction of Zn(II) ions (Dalmata) 67
Tiron
Electrochemical preparation of polypyrrole–molybdenum trisulfide–tetrathiomolybdate electrode with various amounts of molybdenum species (Lavallée et al.) 219
Transfer coefficient
Synthetic semiconductor diamond electrodes: kinetics of some redox reactions (Modestov et al.) 211
Triazine dyes
Self-assembled monolayers with biospecific affinity for lactate dehydrogenase for the electroenzymatic oxidation of lactate (Schlereth, Kooyman) 285
Tunnelling in proteins
In situ STM and AFM of the copper protein *Pseudomonas aeruginosa* azurin (Friis et al.) 35

Ultrasound
Effects of ultrasound on the electrolytic conductivity of simple halide salts (Cataldo) 61
Underpotential deposition (upd)
The growth of the second underpotentially deposited silver layer on Pt(100) (Bittner) 51

Voltammetric reduction
The reduction of nickel dimethylglyoxime complex preadsorbed on mercury (Ramírez et al.) 171
Voltammetry
Voltammetry of metal ions in mixtures of ligands. Part I. Theoretical formulation and application to 1:1 labile complexes (Berbel et al.) 99

Zirconium phosphate
Preliminary electrochemical study of phenothiazines and phenoxazines immobilized on zirconium phosphate (Pessoa et al.) 23
ZnHCF
Modification of carbon electrodes with zinc hexacyanoferrate (Joseph et al.) 231
